Here are some easy instructions for:

**Pinning one video feed so students can still talk without the videos switching every times someone new speaks on zoom.**

Using Zoom from computer/ipad:

Selecting one video feed to stay on:

1. At the top of your screen, hover over the video of the participant you want to pin
2. From the menu, choose Pin Video.

Alternatively, the studio feed can also choose to spotlight a video (Spotlight video puts a participant as the primary active speaker for all participants. All participants will only see this speaker as the active speaker):

1. At the top of your screen, hover over the video of the participant you want to spotlight
2. From the menu, choose Spotlight Video.

Using Zoom from computer/ipad:

Selecting one video feed to stay on:

1. At the top of your screen, hover over the video of the participant you want to pin
2. From the menu, choose Pin Video.

Alternatively, the studio feed can also choose to spotlight a video (Spotlight video puts a participant as the primary active speaker for all participants. All participants will only see this speaker as the active speaker):

1. At the top of your screen, hover over the video of the participant you want to spotlight
2. From the menu, choose Spotlight Video.

If using an iPhone/Android:

1. Swipe right on the video feed until you reach Gallery View
2. Double-tap the video of the participant you want to pin.

Here's a helpful website that gives more information, but I think these instructions are pretty straight forward.
